Proactive Planning- What to do this Month

- Prepare State staff for site visits.
- Identify underserved areas, and ask sponsors if they are willing to expand their meal services to those areas.
- Ensure that areas of highest need have meal service sites that children will be able to access.
- Be prepared to answer questions from new sites and sponsors.

Be sure to check the Summer Toolkit for updated resources!

Resources for State Agencies

Free Nutrition Education Materials for Summer Meals

FNS recently released a collection of nutrition education resources for summer meal site operators in English and Spanish that State agencies can distribute to sponsors and sites! These exciting new materials, developed by Team Nutrition, are designed to help kids and families make healthy food choices and be physically active during the summer months. The new materials include:

Summer Food, Summer Moves – A step-by-step kit to help Summer Meal site operators use creative themes, entertaining games, and educational activities to teach children and families about nutrition and exercise.

Take a Healthy Summer Break infographic – A dynamic social media tool to share with parents/caregivers and community partners to highlight the importance of healthy food choices and physical activity during the summer.

This Summer, Eat Smart to Play Hard handout – A family-friendly guide that

provides nutrition tips, an interactive game, and information about summer meals.

Now is the perfect time to help sponsors start planning how summer meal sites can incorporate some (or all) of these resources as part of daily activities or as part of a special kick-off event. A special “prep-o-meter” in the *Summer Food, Summer Moves Operator’s Guide* can help guide site operators in developing programming that is right for their site. There are also ways to adjust activities for various ages of children participating, time available, and group size. There is something for every type of site and sponsor!

All of the materials are currently online at <http://www.fns.usda.gov/tn/summer-food-summer-moves>. Free printed copies of materials are expected to be available for schools and summer meal sites participating in the USDA Child Nutrition programs this summer. Follow @TeamNutrition on Twitter

Share these new Team Nutrition Summer Resources with parents/caregivers at the end of the school year!

for news about print availability or check the Team Nutrition Web site for updates: <http://teamnutrition.usda.gov>. If you have questions about these new materials, please contact Team Nutrition at TeamNutrition@fns.usda.gov.

The Summer Food, Summer Moves kit includes an operator's guide, activity guides for families, placemats, promotional flyers, and educational posters.
